

GREATER ARIZONA DEVELOPMENT AUTHORITY

12/31/2013

2013 Annual Report

The *Mission* of the **Greater Arizona Development Authority** is to assist Arizona communities with the development of public Infrastructure projects that enhance community and economic Development.

Greater Arizona Development Authority

2013 ANNUAL REPORT

OVERVIEW OF GADA

The Greater Arizona Development Authority (GADA) was created by the Arizona Legislature in 1997 to assist local and tribal governments and special districts with the development of public infrastructure. GADA's goals have been to lower the costs of financing and help accelerate project development for public facilities owned, operated and maintained by a political subdivision, special district or Indian tribe. To accomplish this, GADA is authorized under statute to offer both financial and technical assistance programs. Up until fiscal year 2012, GADA was administered by the Arizona Department of Commerce. In FY 2011, the state legislature assigned WIFA to provide general administrative support, equipment, office and meeting space to GADA to be effective July 1, 2012.

Organization

GADA is governed by a nine-member Board of Directors comprised of four ex-officio members and five members who are appointed by the Governor. The board is responsible for setting policy and approving all projects seeking technical or financial assistance. All board members serve without compensation.

Statutorily Designated

-
- Greg Linaman, Chair
Commerce Authority
- Henry Darwin
Department of Environmental Quality
- Kevin Donnellan
Office of State Treasurer
- Kristine Ward
Department of Transportation

Governor Appointed

-
- Mignonne D. Hollis (I)
Cochise County
- Paul B. Johnson (R)
Yuma County
- Patt A. Parker (?)
Yavapai County
- Alan Willenbrock (R)
Pima County
- Tribal Representative,
Vacant

Greater Arizona Development Authority

Appointed members serve staggered five-year terms, with no appointed member allowed to serve more than two consecutive terms. In addition, all appointed members shall reside in different counties, and no more than three shall be from the same political party. One shall be a member of an Indian tribe located in Arizona.

GADA is administered by the Executive Director of WIFA, Sandra Sutton, WIFA Chief Financial Officer, Trish Incognito, WIFA Controller Mike Clark and the GADA Project Manager Angie Valenzuela with support from Rex Nowlan, Esq. from the Office of the Arizona Attorney General. Financial advisement services are provided by Western Financial Group and bond counsel is Kutak Rock LLP.

FINANCIAL ASSISTANCE

Historically, GADA bonds were insured and sold as AAA rated tax-exempt issues. This allowed borrowers with lower investment grade ratings to realize, in some cases, substantial interest savings. Depending on the loan amount, past GADA financial assistance packages have resulted in a savings to borrowers of \$25,000 to \$200,000.

GADA's Credit Profile

GADA has experienced two downgrades to their credit profile. The most recent downgrade was released on April 10, 2012. Standard & Poor's Ratings Services released a summary of GADA's revenue bonds following the release of updated criteria and current credit profile review. As a result, Standard & Poor's has lowered GADA's enhanced rating to "A" from "AA".

The rating reflects:

- The authority's strong market position, resulting in a very strong enterprise risk score;
- State legislation that requires interception of state-shared revenue to pay debt service in the event of a deficiency, which applies to about 80% of the pool participants;
- Diverse loan base spanning the entire state;
- The extremely low loan default and delinquency history; and
- Management policies that are generally considered adequate to strong.

The primary offsetting factor is the vulnerable loss coverage score, that when combined with other financial scoring factors, resulted in only an adequate financial risk score.

The stable outlook reflects the expectation that the trend of exceptionally low level of loan delinquencies and defaults will continue. The rating is not likely to move upward without a significant increase in pledged reserve levels relative to the amount of loans and bonds outstanding. However, with a stable level of pledged reserves, currently totaling \$10.5 million, and a declining debt service schedule, the amount of stress the pool can withstand will increase over time ([www.standardandpoors.com/ratings direct](http://www.standardandpoors.com/ratingsdirect)).

2013 Funding Round

A financial assistance funding round was opened by the Board on November 29, 2013. This financial assistance round was opened specifically to refund or purchase outstanding GADA bonds and solely available to cities, towns, counties, special districts and tribal governments that had originally received financial assistance from the proceeds of such GADA bonds. Due to market conditions, there was no significant benefit to the borrowers to move forward with refunding bonds.

Loan/Bond Issues – Redemptions & Maturities

The following loan/bond issues have either been redeemed or matured in fiscal year 2013:

Issue Name	Status	Date
GADA Three Points Fire 2007B	Matured	August 1, 2012

CUMULATIVE LIST OF GADA'S FINANCINGS

Year/Borrower	Amount/Type	Project	Estimated Savings
1998/AVONDALE	\$4,300,000/GO Bond	Public Safety Building and Park Improvements	\$48,679
1998/AVONDALE	\$2,000,000/Revenue Bonds	Water and Sewer	27,353

GADA'S GENERAL FUND & APPROPRIATION HISTORY

GADA's initial capitalization was \$20 million, funded from general fund monies in installments over a three year period, \$200,000 of which was authorized and used for start-up funding. These monies are not "endowed," meaning they may be swept or appropriated at any time by the Arizona legislature, with the exception of funds deposited to the pledged collateral reserve fund as security for GADA's various bond issues.

Summary of Deposits and Withdrawals

There have been seven withdrawals to the \$20 million GADA Fund since the inception of the program. Below are the details for each withdrawal:

- \$200,000 was authorized and expended to "start up" the program in FY 98;
- \$2,500,000 of the GADA Fund was withdrawn by the Arizona Legislature in FY 03 to help balance the budget during the recessionary period following 9/11;
- During the fiscal year ended June 30, 2003, GADA sustained investment losses due to the bankruptcy of National Century Financial Enterprises Inc., a financing corporation in which the State's Local Government Investment Pool funds (including GADA) were invested. GADA's portion of this investment loss was \$668,578. GADA has received several payments representing recovery on this loss through partial settlements reached in the lawsuit as well as recoveries from the bankruptcy proceedings in previous fiscal years and as of June 30, 2013; GADA had recovered \$506,662 of this loss. The remaining balance of \$161,916 will be written off by the Treasurer's Office as uncollectable;
- \$1,071,000 of the GADA Fund was withdrawn by the Arizona Legislature in FY 08 to help balance the state budget;
- Three more sweeps totaling \$5,196,100 were withdrawn by the Arizona Legislature in FY 09 to help balance the state budget;
- During the fiscal year ended June 30, 2009, GADA experienced another investment loss due to the bankruptcy of Lehman Brothers. GADA's portion of this loss was \$22,409. As of the end of June 30, 2013 a total of \$3,332 has been recovered. Additional distributions are expected in FY 14; and
- Two more sweeps totaling \$1,968,800 were withdrawn by the Arizona Legislature in FY 10 to help balance the state budget.

Deposits/Withdrawals

Fiscal Year	Description	Amount
FY 98	General Fund Appropriation	\$3,000,000
FY 98	Start Up Funding	(200,000)
FY 99	General Fund Appropriation	8,000,000
FY 00	General Fund Appropriation	9,000,000
FY 03	Withdrawal to General Fund	(2,500,000)

FY 03	LGIP Investment Loss (net of recoveries through the end of FY 13)	(161,916)
FY 08	General Fund Appropriation	2,000,000
FY 08	Withdrawal to General Fund	(1,071,000)
FY 09	Withdrawal to General Fund	(2,000,000)
FY 09	Withdrawal to General Fund	(2,000)
FY 09	Withdrawal to General Fund	(3,194,100)
FY09	LGIP Investment Loss Lehman Brothers (net of recoveries through the end of FY 13)	(19,077)
FY 10	Withdrawal to General Fund	(1,968,800)

INDEPENDENT AUDITORS' REPORT

Board of Directors
Greater Arizona Development Authority
Phoenix, Arizona

We have audited the accompanying financial statements of the governmental activities and its major fund of the Greater Arizona Development Authority (the "Authority"), a component unit of the State of Arizona, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and its major fund information of the Greater Arizona Development Authority, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, Governmental Accounting Standards Board (GASB) issued Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. For Greater Arizona Development Authority, GASB Statement No. 62 has not impacted their financial statements however GASB Statement No. 63 has impacted what was previously identified as "Statement of Net Assets" and renamed it to "Statement of Net Position".

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 8, 2013, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

Henry & Horne LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the Greater Arizona Development Authority's (GADA) financial performance, providing an overview of the activities for the fiscal year ended June 30, 2013. Please read it in conjunction with GADA's financial statements, which follow this section. The completeness and fairness of the following information is the responsibility of GADA's officials and management.

FINANCIAL HIGHLIGHTS

Government-Wide:

- The assets of GADA exceeded liabilities at the close of the fiscal year by \$13,159,007 (reported as *net position*). Of this amount, \$2,694,007 is unrestricted¹ (or not yet pledged) and \$10,465,000 (*restricted net position*) is restricted for the purpose of security pledged to outstanding bonds.

Fund Level:

- As of the close of the fiscal year, GADA's governmental funds reported combined ending fund balances of \$13,159,007, an increase of \$326,165 from the beginning of the year. Approximately 20.47% of the combined fund balances, or \$2,964,007 million, is available to meet GADA's current and future needs as authorized by ARS §41-2254, E3& ARS §41-2254, E4.

GADA Bonds:

- Although issued in the name of GADA, loans funded through GADA bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. Pursuant to ARS §41-2259, GADA's bonds do not constitute or create a general, special or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. The only exposure to the State is related to the restricted net position of \$10,465,000 in the Pledged Collateral Reserve Fund (PCRF).

More detailed information regarding the government-wide financial statements, fund level financial statements and long-term debt activity can be found beginning on page 11.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to GADA's basic financial statements, which are comprised of three components:

- 1) government-wide financial statements (pages 11-12),
- 2) fund financial statements (pages 13-16), and
- 3) notes to the financial statements (17-25).

¹ Although these funds are not considered to be restricted from an accounting perspective, their use is limited pursuant to Arizona Revised Statutes, §41-2254 et seq.

Required Supplementary Information and other supplementary information are included in addition to the basic financial statements.

Government-Wide Statements (Reporting GADA as a Whole)

The government-wide financial statements provide a broad overview of GADA's finances in a manner similar to private sector business. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid. The government-wide financial statements include the following:

The Statement of Net Position (page 11) presents all of GADA's assets and liabilities, with the difference between the two reported as total net position. Over time, increases and decreases in total net position measure whether GADA's financial position is improving or deteriorating.

The Statement of Activities (page 12) presents information showing how GADA's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., disbursements on technical assistance grants).

Generally, both government-wide statements report three activities:

- *Governmental Activities* – Most of GADA's basic services are reported under this category. Interest earnings on the GADA Fund generally fund these services.
- *Business-type Activities* – GADA is authorized to charge fees to borrowers to help cover costs associated with administration of applications for financial assistance. In FY09, the Board of Directors approved proposed rule changes to recover any costs incurred by GADA on behalf of applicants.
- *Discretely Presented Component Units* – Component units are legally separate organizations for which the subject entity is financially accountable. GADA has no discretely presented component units.

At this time, all of GADA's activities are *governmental activities*; although *business-type activities* are eminent in the future, they may be referenced but are not discussed further in this report. Therefore, the balance of Management's Discussion and Analysis is focused on and limited to GADA's *governmental activities*.

Fund Financial Statements (Reporting GADA's Major Funds)

The fund financial statements begin on page 13 and provide detailed information about the GADA Fund, which is a *governmental fund*. Governmental funds focus on how money flows into and out of those funds and the balances left at year end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of GADA's general government operations and the basic services it provides.

Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance GADA's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. This report includes two schedules (pages 14 and 16) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) reported on the government-wide statement.

Currently, GADA has no *proprietary funds* – such funds would reflect charges to customers for the services. Proprietary funds utilize accrual accounting; the same method used by private sector businesses.

Likewise, GADA does not have any *fiduciary funds*, and none are anticipated to be established.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found beginning on page 17 of this report.

GOVERNMENT-WIDE FINANCIAL STATEMENTS ANALYSIS

The discussion in this section refers to pages 11 and 12 of the financial statements. GADA's overall financial position and operations for the past year are summarized in Figure 1, based on the information included in the government-wide financial statements.

Change in Net Position

The change in GADA's net position from governmental activities covers two categories:

Restricted net position or the Pledged Collateral Reserve Fund (PCRF) – all \$10,465,000 of GADA's *restricted net position* is held in the PCRF. These funds are pledged as security on GADA's outstanding bonds and represent 79.53% of net position. Any deposits to the PCRF are determined by national ratings agencies on an issue-by-issue basis.

Unrestricted net position – The remaining balance of GADA's net position of \$13,159,007 represents *unrestricted net position* of \$2,694,007 (20.47%). GADA's *unrestricted net position* consists of monies not yet pledged to bonds, interest earned on the GADA Fund or technical assistance loans, investment loss recovery and any other funds received without restrictions. At the end of FY 13, GADA's *unrestricted net position* increased a total of \$326,165.

GADA's total net position consist of general fund appropriations and interest earned on these appropriations. The current level of appropriated funds, interest income and the use of both is described in the Fund Financial Statements section of this document.

FUND FINANCIAL STATEMENTS ANALYSIS

The discussion in this section refers to pages 13 through 16 of the financial statements. The Fund Financial Statements provide detailed information about GADA's major individual funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts that GADA uses to keep track of specific sources of funding and spending for a particular purpose. GADA's cash and cash equivalents are held in four funds: the GADA Fund, the technical assistance loan fund, the operating fund and funds held at US Bank.

In order to understand GADA's funds, a discussion of the history of the GADA Fund is in order.

History of GADA's General Fund Appropriation deposits and withdrawals – GADA was created by the Arizona Legislature effective FY 98, and the GADA Fund was originally capitalized with general fund appropriations totaling \$20 million over a three-year period, as shown in Figure 2.

- 1) \$200,000 was authorized and expended to “start up” the program in FY 98;
- 2) \$2.5 million of the GADA Fund was withdrawn by the Arizona Legislature in FY 03 to help balance the budget during the recessionary period following 9/11;
- 3) During the year ended June 30, 2003, GADA sustained investment losses due to the bankruptcy of National Century Financial Enterprises Inc., a financing corporation in which the State’s Local Government Investment Pool funds (including GADA) were invested. GADA’s portion of this investment loss was \$668,578. GADA has received several payments representing recovery on this loss through partial settlements reached in the lawsuit as well as recoveries from the bankruptcy proceedings in previous fiscal years and as of June 30, 2013, GADA had recovered \$506,662 of this loss. The remaining balance of \$161,916 will be written off by the Treasurers Office as uncollectable.
- 4) \$1.071 million in FY 08 and a total of \$5.196 million in FY09 of the GADA Fund was withdrawn by the Arizona Legislature to help balance the State budget.
- 5) During the year ended June 30, 2009, GADA experienced another investment loss due to the bankruptcy of Lehman Brothers. GADA’s portion of this loss was \$22,409. As of the end of June 30, 2013 a total of \$3,332 has been recovered. Additional distributions are expected in FY 14.
- 6) An additional \$1,969,000 was withdrawn by the Arizona Legislature in FY 10 to help balance the state budget.

The \$2,275,900 difference between GADA's *restricted and unrestricted* net position of \$13,159,007 (from Figure 1) and the total GADA Fund balance of \$10,883,107 (from Figure 3) is a function of interest earned on the GADA Fund in FY 13 and previous fiscal years.

Figure 3

GADA Fund*
Deposits and Withdrawals Since Inception (FY 98)
as of June 30, 2010

FY 98 General Fund Appropriation	\$3,000,000
FY 98 Start Up Funding	(200,000)
FY 99 General Fund Appropriation	8,000,000
FY 00 General Fund Appropriation	9,000,000
FY 03 Withdrawal to General Fund	(2,500,000)
FY 03 LGIP Investment Loss (net of recoveries)	(161,916)
FY 08 General Fund Appropriation	2,000,000
FY 08 Withdrawal to General Fund	(1,071,000)
FY 09 Withdrawal to General Fund	(2,000,000)
FY 09 Withdrawal to General Fund	(2,000)
FY 09 Withdrawal to General Fund	(3,194,100)
FY 09 LGIP Investment Loss Lehman Brothers	(19,077)
FY 10 Withdrawal to General Fund	(1,968,800)
Minimum Necessary Balance	\$10,883,107

The GADA Fund contains both *restricted* and *unrestricted* assets:

1. *Restricted assets*, or the Pledged Collateral Reserve Fund (PCRF) – all \$10,465,000 of GADA's *restricted net position* held in the PCRF. These funds are pledged as security on GADA's outstanding bonds and represent 79.53% of the \$13,159,007 GADA Fund.
2. *Unrestricted assets* – The remaining balance of \$2,694,007 in the GADA Fund consists of monies not yet pledged to bonds and the technical assistance loan fund (discussed separately).

Technical Assistance Loan Fund – ARS §41-2254 B authorizes up to \$800,000 of the GADA Fund to be used for technical assistance loans. These short-term loans (up to 3 years) may be used for later stage infrastructure project development and may be repaid from the proceeds of a GADA bond issuance. No technical assistance loans were funded in FY 13, and there are currently no outstanding loans.

Operating Fund – ARS §41-2254 E *et seq.* requires that all operating expenses of the program, including staffing, professional services, technical assistance grants and any cost of issuance subsidies for bond issuances and all other expenses must be paid from interest earnings or funds received *other than the GADA Fund*.

At the end of a fiscal year, any unspent portion of the budget, or interest earned on the GADA Fund or technical assistance loans in excess of that required funding the approved budget, are held in the operating fund as an operating reserve. The use of these funds, requires a vote of the Board.

In FY 13, the operating fund benefited from interest revenue and recovery of bankruptcy funds, earned on the GADA Fund, in the amount of \$368,952. After the budget expenses of \$42,787 were paid, the operating fund had revenues over expenditures in the amount \$326,165. (Page 15 of the financial statements). This amount is reflected as a portion of the net change of governmental activities in the reconciliation statement on page 16.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

GADA has no capital assets.

Long-term debt

Although issued in the name of GADA, loans funded through GADA bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. Pursuant to ARS §41-2259, GADA's bonds do not constitute nor create a general, special or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. The only exposure to the State is related to the *restricted net position* of \$10,465,000 in the PCRF. There were no new bonds issued in FY 13.

ECONOMIC FACTORS

The economy is still affecting the operations of the State. The economy of the State is improving and there are no new transfers projected. If the economy continues to improve the fund may expand in future years.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 1 NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Greater Arizona Development Authority (GADA) conform to accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of such significant policies.

Nature of Activities

Greater Arizona Development Authority (GADA) was authorized during the 1997 Legislative Session and is a component of the State of Arizona. GADA was signed into law on April 26, 1997 under Arizona Revised Statutes (ARS) § 41-2252. On July 21, 1997, this legislation took effect and GADA was formally constituted. Pursuant to ARS § 41-2263, an annual audit of the Greater Arizona Development Authority is required within 150 days after the close of the fiscal year.

The purpose of GADA is to provide cost-effective access to capital for local communities, certain special districts, and tribal governments for public infrastructure projects. GADA has been designed to reduce local governments' cost of borrowing by reducing transaction costs, by providing technical expertise and by "pooling" or otherwise enhancing the credit or financial capacity of individual projects.

Financial Reporting Entity

In accordance with the requirements of the Governmental Accounting Standards Board Accounting Standards Codification, the financial statements must present GADA and its component units. Pursuant to this criterion, no component units were identified for inclusion in the accompanying financial statements.

Measurement Focus, Basis of Accounting, and Basis of Presentation

The accounts of GADA are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about GADA, the primary government, as a whole. These statements distinguish between activities that are governmental and those that are considered business-type activities.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 1 NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Government-Wide Financial Statements (Continued)

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with a brief explanation to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statements of activities present a comparison between expenses and program revenues for each governmental program. Direct expenses are those that are specifically associated with the service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the receipts of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as requirements of a particular program and are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of GADA.

Net position should be reported as restricted when constraints placed on assets use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The restricted net position for other purposes result from special revenue funds and the restrictions on their net asset use.

Using a fund accounting system, amounts are spent in accordance with established fund authorities. Fund authorities provide rule for the fund activity and are separately established for restricted and unrestricted activity. For both restricted and unrestricted funds that are available for expenditure, the decision for funding is transactional based with the departmental management system in place at GADA.

Governmental Funds

The governmental fund is accounted for using modified accrual basis of accounting and current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 1 NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Governmental Funds (Continued)

As of June 30, 2013, fund balances of the governmental funds are classified as follows:

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Unassigned - all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first.

Cash and Investments

GADA's cash and cash equivalents are considered to be cash on hand and short-term investments with original maturities of three months or less from the date of acquisition. GADA's investments are invested primarily with the LGIP (see Note 2). These pooled funds are investments of the U.S. Government, agencies guaranteed by the U.S. Government, and certificates of deposit. Investments are stated at cost, which equals fair value. The LGIP is established pursuant to ARS §35-326 and is operated by the State Treasurer in accordance with Arizona law.

Assistance Programs

Technical Assistance

The purpose of GADA's technical assistance program is to accelerate project development by assisting communities with various planning-related tasks. The eligible applicants include cities, towns, counties, special districts and Indian Tribes. Technical assistance may include such assistance as: 1) help in writing requests for proposals, 2) development of a project timeline, 3) independent review of feasibility studies or project designs, 4) development of rate studies, 5) analysis of fiscal capacity, and 6) development of a public outreach program.

Financial Assistance

GADA's bond structure allows the Authority to lower borrowing costs for Arizona's communities by issuing and selling bonds tax-exempt and by sharing financing costs among several borrowers. Eligible applicants include cities, towns, counties, Indian Tribes, and certain special districts. Principal and interest are payable semiannually. Loans are secured by the Pledged Collateral Reserve Fund, a requirement that is calculated and deposited by GADA from the GADA fund which is held by the State Treasurer. Some borrowers also have separate, additional reserve funds, which are held by the Trustee. An intercept mechanism of state-shared revenues for political subdivisions enhances the security of the GADA bonds.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 1 NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Assistance Programs (Continued)

Loan Obligations

Although issued in the name of GADA, loans funded through GADA bonds are solely the obligation of the underlying borrowers and are documented by loan repayment agreements. Pursuant to ARS §41-2259, GADA's bonds do not constitute nor create a general, special or other obligation or other indebtedness of the State or any governmental unit within the meaning of any constitutional or statutory debt limitation. The bonds do not constitute a legal debt of the State and are not enforceable against the State. The only exposure to the State is related to the restricted net assets of \$10.465 million in the Pledged Collateral Reserve Fund (PCRF).

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Impact of Recently Issued Accounting Principles

In December 2010, the GASB issued Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. GASBS No. 62 incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The Authority adopted GASBS No. 62 in 2012. The adoption of GASBS No. 62 does not have any impact on the Authority's financial statements.

In June 2011, the GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. GASBS No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. The statement of net assets is renamed the statement of net position and includes the following elements: assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011. The Authority adopted GASBS No. 63 in 2012. The adoption of GASBS No. 63 has impacted the presentation of the Authority's financial statements.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 2 DEPOSITS AND INVESTMENTS

Cash and Investments

Cash and investments, both unrestricted and restricted, are made up of cash on hand and cash invested in the State Treasurer's Office. The State Board of Deposit provides oversight for the State Treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant's position in the pool approximates the value of the participant's pool shares. The shares are not identified with specific investments and are not subject to custodial credit risk.

Deposits

As of June 30, 2013, GADA's investments in the Treasurer's office totaled \$13,141,855. These investments were in Pool 5, a separate pool of investments owned by GADA and managed by the Treasurer's office on GADA's behalf. The investments in GADA Pool 5 are longer term investments, invested to recognize a stable income return to GADA for its operations. Interest earned from investment in Pool 5 is allocated to GADA monthly. The market fluctuations of individual securities held within the pool are recognized by GADA. Pool 5 does not seek to maintain a \$1.00 NAV.

Custodial Credit Risk Deposits

Custodial credit risk is the risk that in the event of a bank failure, GADA's deposits may not be returned to it. GADA does not have a deposit policy for custodial credit risk; however GADA's deposits are managed by the State Treasurer and deposits of State treasury monies with financial institutions are required by State statutes to be entirely covered by the Federal Depository Insurance Corporation (FDIC) or, alternatively, collateralized for amounts in excess of the amount insured. As of June 30, 2013, all of GADA's deposits were FDIC insured or collateralized with securities held by pledging financial institution's trust department or agent.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, GADA follows the investment policy established by the State Treasurer.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the holder of the investment. All of GADA's investments are held with the State Treasurer and as such follows the State Treasurer investment policy. The LGIP pooled funds are not rated.

GREATER ARIZONA DEVELOPMENT AUTHORITY OF ARIZONA
NOTES TO FINANCIAL STATEMENTS
June 30, 2013

NOTE 3 RESTRICTED NET POSITION

The restricted net position amount of \$10,465,000 as of June 30, 2013 represents pledged security funds of \$605,000, \$1,060,000, \$745,000, \$1,695,000, \$3,120,000, \$1,140,000, \$982,000, \$322,356, \$137,500, \$49,144 and \$609,000 for fourteen bonds that were issued by GADA during the fiscal years of 2010, 2009, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000 and 1998, respectively. The restricted net position amounts will remain restricted until the bonds are repaid.

NOTE 4 LONG-TERM DEBT

NOTE 4 LONG-TERM DEBT (Continued)

GADA entered into a series of agreements with local Arizona communities which require these individual communities to make debt service payments to GADA equal to the debt service requirements of the bonds issued. These agreements directly relate to the bonds payable amounts recorded on GADA's Statement of Net Position, and therefore are recorded on government-wide financial statements. The following is the local communities' portion of bonds payable included in the balance sheet of GADA as of June 30, 2013:

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

Board of Directors
Greater Arizona Development Authority
Phoenix, Arizona

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and its major fund of the Greater Arizona Development Authority (the "Authority"), as of and for the year ended June 30, 2013, and have issued our report thereon dated August 8, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
